## Imagine just few things you can do with your home or Business.....

- Turn on and off your lights from your car for security or open the gates up to 1500' away.
- Create lighting scenes depending of your moods or turn on lights automatically as you walk.
- Turn on and off your air conditioners automatically following a schedule or online from your office.
- Control all your video and sound equipment with a single remote control, touch screen or keypad, even if they are inside a cabinet or in another room.
- See the same movie from any video source in all the TVs of your house or your business.
- You don't need wait for the intruder to break a window or be inside your home or business to sound the alarm; let's start by turning on your outside lights, sound a tone or even call you by phone to alert you before entering.
- Install a home theater system capable of playing all theater sound formats like THX and DTS in a room acoustically prepared like a real theater in your home.
- Watch your security cameras of your home or business remotely from a PC online.
- Control any electrical device of your home or business automatically, by phone, with a PC online or using a remote control.

\* Offer not applicable to special offers. Offer can't be used in combination with other offers. Limited to one offer per client.
